STANADYNE

Part #38560C

LUBRICITY FORMULA FUEL ADDITIVE (PINT / 437ML)

Extra strength Lubricity Formula® is ideal for very dry or "winter blend" fuels such as No.1 diesel.

Approved by Original Equipment Manufacturers (OEMs)

- Five times more lubricating content than other Stanadyne additives
- Recommended when excessive wear is a problem
- Cleans and protects injectors and all fuel systems components
- Demulsifies water for filter/separator efficiency
- Fights formation of corrosion and rust
- Can be used with bio diesel up to B20 (20% bio content)
- Treats 125 U.S. Gallons (470 Liters)
